THE WELLNESS STANDARD

WHY NON-TOXIC MATTERS

CONTEXT

The Problem: Indoor air quality can be 2-5 more polluted than outdoor air due to chemical cleaners.

Our Solution: We use trusted brands like Branch Basics, Dr. Bronner's, and Blueland.

THE IMPACT

Reducing chemical load helps balance hormones, improve sleep, and soothe the nervous system.

Did You Know? "Fragrance" on a label can hide hundreds of undiscloused chemicals. We banish them all.

HELLO & WELCOME!

WE'RE MONICA AVILA & BEATRIZ MIRANDA.

We created the BA Organization because we believe your home should be your sanctuary, a place where the noise of the world fades away, and your nervous system can finally rest.

Our journey didn't start in a boardroom or with a business plan. It started right at home, in the middle of the beautiful chaos of raising our kids. As mothers, we both experienced the same frustration: no matter how much we cleaned and organized, something always felt off. Our spaces didn't support the calm our families needed, and the products we trusted to keep our homes fresh were often silently harming us.

When we connected and shared our stories, we realized we weren't alone and that we could do something about it. We combined Monica's eye for functional design with Beatriz's passion for non-toxic, intentional living, and BA Organization was born.

Today, we don't just organize stuff. We curate environments that support your health, elevate your daily rituals, and bring a profound sense of peace to your family because every home deserves to feel like a true sanctuary.

OUR CORE VALUES

WELLNESS FIRST

If it's toxic, it's out. We champion a chemical-free standard that protects your air quality and hormones.

INTENTIONALITY

We don't just hide clutter; we create systems that match your real habits.

AESTHETICS

We believe organization is an art form. Every shelf is styled to be as beautiful as it is functional.

Real Transformations. Real Peace.
